**Trade fair alliance for the mechanical
engineering and supplier industry**

www.messeverbund.de/en

The logo for Intec, featuring the word "intec" in a bold, blue, sans-serif font. The letters are contained within a yellow speech bubble shape that points to the right.

Intec is one of the leading trade fairs for metalworking. It provides an effective platform for major industry players as well as SMEs. Machine tools, precision tools, manufacturing automation and robotics are in the spotlight here.

Z – the International Subcontracting Fair for Parts, Components, Modules and Technologies – is taking place at the same time.

Together, these two fairs cover the entire process chain – from raw materials and components, assemblies and industrial services, all the way to machine tools and complex production and automation solutions.

Exhibitor portfolio

- Machine tools
- Other machines and equipment
- Additive manufacturing processes, laser technology
- Special machine building, machine-related products
- Machine components and accessories, parts, assemblies
- Tools, fixtures, chucking devices
- Automated production and robotics
- Measurement engineering and quality assurance
- Production technology for renewable energy generation systems
- Storage and materials handling technology
- Research institutes, universities, colleges
- Services

The Z subcontracting fair is the only trade fair in Germany that brings together the entire spectrum of the subcontracting industry relating to the machining and processing of metal and plastic.

It connects national and international companies from the lower and middle stages of production, as well as industrial service providers.

Across all sectors, it covers everything from A to Z, creating a unique platform for networking and business development.

Exhibitor portfolio

- Parts and components
- Joining, connection and assembly processes
- Materials and semi-finished products
- Processes as technological supply services
- Tools and equipment for manufacturing of supplier parts and modules
- Electrical engineering / electronics – individual parts, components, processes for manufacturing, finishing, assembly and testing
- Industrial services
- Information, organisation, consulting

Z ULIEFER
MESSE

The trade fair alliance between Intec and the Z Subcontracting Fair combines state-of-the-art production technology with bespoke subcontractor solutions – thereby covering the entire value chain in the mechanical engineering, plant engineering and automotive construction sectors. Visitors benefit from the combined innovative strength of both trade fairs, make valuable contacts and discover solutions that will take their production to the next level.

Visitor origin

26.9% Up to 50 km

26.3% Between 50 km and 100 km

31.7% Between 100 km and 300 km

15.2% More than 300 km

Visitor target groups

- Machine, plant and tool engineering
- Metalworking
- Automotive and vehicle industry
- Plastics technology and processing
- Electrical engineering / electronics
- Other industrial sectors (such as power plant construction, agricultural machinery manufacturing, aviation, medical technology, optical industry and railway vehicle manufacturing)
- Industry services
- Crafts
- Research

Optimised hall utilisation

40,000 sqm – Plenty of space for a wealth of expertise, as well as a more compact and efficient trade fair experience:

- high contact density
- more visibility
- ideal networking potential
- short distances
- clear direction

Take a look!

Specialist and supporting programme

With a wide range of formats, the programme organised by Intec and Z offers cross-industry information, advice for your own business activities and numerous networking opportunities.
