## International trade fair for machine tools, manufacturing and automation

# LEIPZIGER MESSE

## Review of Intec 2023

Intec is one of the most important international trade fairs for machine tools, manufacturing and automation in Europe. Every two years, decision-makers and experts from the metal processing sector come together for this industry gathering in Leipzig.

## Intec Overview ...

### Excellent portfolios ...

presented by global market leaders as well as small and medium-sized enterprises offering high-performance products, new technologies and innovative developments.

### Technological highlights ...

focusing on the latest issues impacting our future, inspiring attendees and fostering knowledge transfer and dialogue within the industry.

### Triple added value ...

with Intec, the Z supplier trade fair and GrindTec all taking place at the same time. This international trio of trade fairs covers the entire supply chain in the metal processing industry and serves as a key networking platform for decision-makers and experts.

### International networking ...

at exhibitor stands and numerous supporting events serves to establish and expand international contacts.

### Industry contact for young professionals ...

through guided tours and personal conversations about opportunities for internships, thesis projects and jobs.

### Practice-oriented conference programme ...

comprising symposia, seminars and workshops with answers to your questions about the industry's transformation.

## Exhibitors

**96 %** High-quality visitors

**93 %** Expectations met

**96 %** Good opportunities for follow-up business

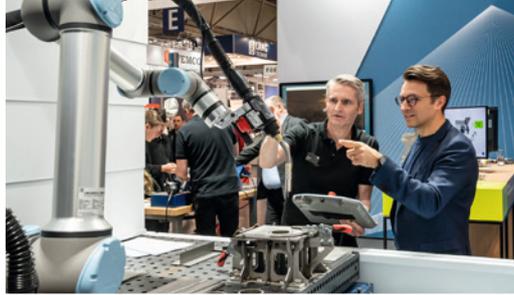

**90 %** Consider participating again in 2025

**94 %** Would recommend Intec

## Exhibitor Target Industries

General machine tool production		<b>67 %</b>
Metal processing		<b>66 %</b>
Machine tool equipment production		<b>60 %</b>
Automotive industry		<b>52 %</b>
Toolmaking		<b>52 %</b>
Plant construction		<b>50 %</b>
Electrical engineering/ Electronics		<b>34 %</b>
Skilled trades		<b>27 %</b>
Energy production		<b>25 %</b>
Other fields in the industry		<b>23 %</b>

(multiple answers possible)

## Visitors

**19.300** Visitors to Intec, Z und GrindTec

**17.173** Attended Intec

**97 %** Industry professionals

## Visitor Reviews

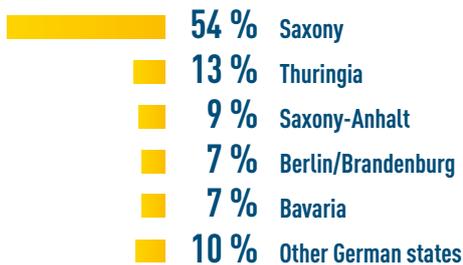

**97 %** Would recommend

**81 %** Positive assessment of business success

**89 %** Goals generally achieved

**94 %** Plan to attend in 2025

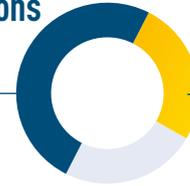

## Home States of German Visitors

This data is from exhibitor and visitor surveys conducted by an independent market research institute.

## Influence on Purchasing and Investment Decisions

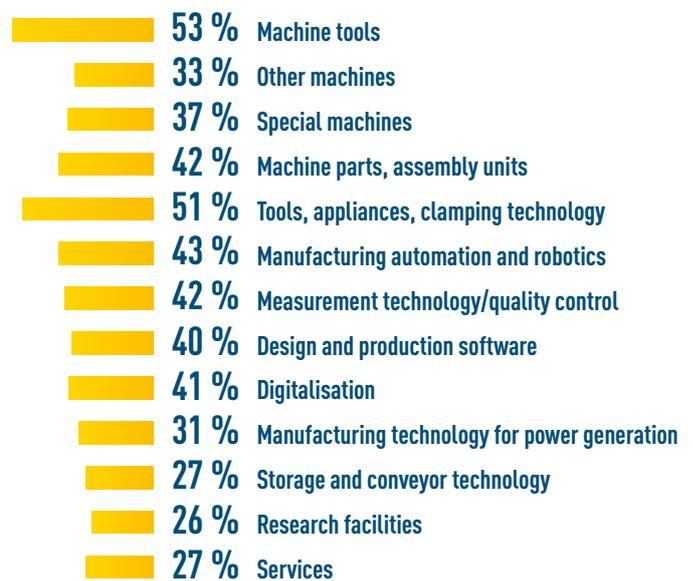

**50 %** primary decision-maker/  
involved in decisions

**26 %** consulting role

## In Demand at Intec

(Multiple answers possible)

## Review of the 2023 Trade Fair Trio

International subcontracting fair for parts, components, modules and technologies

**170** Exhibitors

**65 %** From Germany

**35 %** Abroad (18 countries)

### TOP Exhibitor Target Industries:

70 % Plant engineering, machine tool building and toolmaking

66 % Automotive industry and suppliers

37 % Industrial services

38 % Other industrial sectors (electronics/electrical engineering, plastics technology and processing, medical technology, etc.)

International trade fair for tool grinding and tool machining

**98** Exhibitors

**56 %** From Germany

**44 %** Abroad (11 countries)

### TOP Exhibitor Target Industries

64 % Metals processing industry

61 % Precision tool industry

57 % Automotive industry and suppliers

48 % Precision tools Skilled mechanics

39 % Metal trades and crafts

33 % Sawmill and planing mill industry

## More Facts & Figures

- Technology topics:  
Additive manufacturing – evolution of a modern technology  
Sensor technology – use and prospects in manufacturing  
Fuel cell hub – value creation using hydrogen
- 33,3 %** of all visitors only attend Intec (and no other comparable trade fair)
- 110** professional events with **160** speakers
- Over the past twelve months, there were more than **60** posts on the trade-fair trio's LinkedIn page, documenting some **525.000** impressions.
